# Levels & Differentiation (guide)
# Winter Errorless File Folders

## WHAT THIS LEVEL MEANS (Level 1)

Level 1 = identical picture-to-picture matching.
Students match the cut-out pieces to the same pictures on the folder page (no wrong answers).

## SUGGESTED SERIES PROGRESSION (use across all future packs)

- Level 1: Identical matching (same picture → same picture)
- Level 2: Similar matching (same item, different colour/size/angle)
- Level 3: Concept matching (category / feature / function)
- Example: "winter clothing" items together, or match item to "wear on feet / wear on head".

## WHEN TO MOVE UP A LEVEL

Move to the next level when the student can complete 3-5 folders with:

- mostly Independent or Verbal prompts only, and
- a consistent left-to-right routine, across 3 sessions.

## EASIER (if the student struggles)

- Start with 2–3 pieces only (cover the rest)
- Hand one piece at a time
- Use gesture prompts, then fade
- Use larger Velcro dots / bigger cut-outs

## HARDER (if the student masters quickly)

- Add a simple timer ("beat your time")
- Complete 2 folders in a row
- Add a "check your work" step (photo/model)
- Rotate folders weekly for generalization

## PROMPT KEY (for your data tracking page)

I = Independent; G = Gesture (point); V = Verbal prompt; P = Physical prompt
